

## About the Book & Author

In *Marking Milestones: 21 Keynote Speeches about Successful Institutions and Outstanding Leaders*, Professor Errol Miller addresses fundamental issues through the lens of these institutions and explores the unprecedented sacrifices made by some of our most often unheralded leaders. These speeches, written in an easy-going, non-academic style, persuasively remind us of who we are, the road we have travelled and a future of possibilities.

This iconic collection, laced with humour, history and heart, will give you a deep understanding of the circumstances and the crises that impact us individually and as a nation. You will gain a greater appreciation of the Caribbean; its history, beauty, educational systems, and the values and beliefs that garner Jamaica's position of *audacity* on the world stage.
